There is only one you in this great big world...

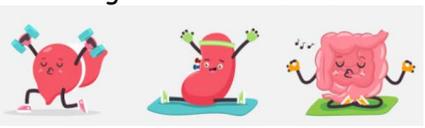

make it a better place.

Learning is not limited to these opportunities of course- please do feel free to add to and adapt these as you wish to!

Take some time this week to prepare for your Learning Review Meeting by reflecting on these questions:

- *How are you finding your learning at the moment?
- *What are you proudest about?
- *What is the biggest challenge?
- *If we could improve things for you in any way, what would it be?

Friday

Good morning! Please log on to seesaw and watch your welcome to the day video.

Make sure you have filmed your video for Crocodile class and posted it on Seesaw. Today is your deadline.

Let's get started on our learning!

Today's film is called Alma

Pause the film after 20 seconds.

- 1) How can we describe the weather using similes? V
- 2) Is there any effect of making everything grey?

Pause as the window image begins to fade. 40 seconds

- 3) What does the window look like?
- 4) How does this make the viewer feel?

Watch the film until the end.

- 5) What do you think of this ending?

The overall theme of the short story, Alma is "Curiosity killed the cat". This is because Alma saw a doll that was identical to her and she wanted to get a closer look. Her curiosity leads her down an alley to an abandoned store that she otherwise would not have gone down. Watch to find out what happens!
